The screenshot shows a window titled '\*Unsaved Document 1 - Pluma'. The menu bar includes File, Edit, View, Search, Tools, Documents, and Help. The toolbar contains icons for Open, Save, Undo, Cut, Copy, Paste, and Find. The text area contains the text 'dummy text for copy' on line 1, which is highlighted in green. A context menu is open over the text, with options: Cut, Copy (highlighted), Paste, Delete, Select All, and Insert Emoji. The status bar at the bottom of the window shows 'Plain Text', 'Tab Width: 4', 'Ln 1, Col 1', and 'INS'.

You can now copy and paste it on the terminal or anywhere if required.
